DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 14, 26 – 35, 36 – 49, 61 – 74, 75 – 88, 100 – 111, 112 – 125, and 137 – 151, drawn to a method of operating an integrated circuit having a memory array comprising thin film switch devices, classified in class 365, subclass 185.02.
 - II. Claims 15 – 25, 50 – 60, 89 – 99, and 126 – 136, drawn to method of operating an integrated circuit having at least one plane of memory array including memory cells arranged in series-connected NAND strings, classified in class 365, subclass 185.18.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed, i.e. steps (g) and (h) in claims 15, 50, 89, and 126. The subcombination has separate utility such as memory cells comprising thin

film switch devices, and, the memory cell devices and the one or more selection devices forming a given NAND string are structurally substantially identical (claims 35 and 74).

3. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

5. A shortened statutory period for response to this action is set to expire 1 (one) month and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see MPEP 710.02(b)).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ly D. Pham whose telephone number is 571-272-1793. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amir Zarabian can be reached on 571-272-1852. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
